Dear Parents,

This is to inform you that to reduce the stress level of the students, CBSE has decided to introduce two levels of examination in Mathematics for the students who are going to appear in the Board examination in the year 2020. The details regarding this scheme are as follows:

1. The two levels of Examination will be applicable only in the Board Examination and not for internal assessment.
2. The nomenclature for the two Examinations will be-
 - a) Mathematics (Standard) – For existing level of examination.
 - b) Mathematics (Basic) – For the easier level of examination.
3. The **Standard level** will be meant for students who wish to opt for Mathematics at Senior Secondary Level and the **Basic level** would be for students not keen to pursue Mathematics at higher levels.
4. In case a student fails at any level of Mathematics, he/she can appear at the compartment examination as per norms of the Board i.e.-

In case of failure in	Compartment Options
Mathematics -Basic	Mathematics -Basic
Mathematics - Standard	Mathematics -Standard OR Mathematics-Basic

5. A student who qualifies the Mathematics-Basic will also get an option to appear in Mathematics-Standard at the time of Compartmental Exam as per norms of the Board if he/she changes her/his mind regarding pursuing Mathematics at Senior Secondary Level.

Parents should also note that the syllabus, class room teaching and internal assessment for both the levels of examination would remain the same. Students will get an opportunity to study the whole range of topics throughout the year.

Keeping all these points and the student's aptitude and abilities in mind, the parents are requested to choose between the two levels of Examination and give their consent for the level being chosen for their ward as this is required in the Registration process.
